

Verso HOTTI wood pellets

HOTTI wood pellets are made of Finnish renewable raw material. The easy usage and environmental friendliness make pellets a good and ecologically durable choice for heating.

ORIGIN:	Woody biomass
WOOD SPECIES:	European white spruce, European red pine
PROPERTIES:	Diameter $8 \pm 0,5$ mm Length $\leq 4 \times$ diameter, 80% of pellets meets the length requirements Mechanical durability $\geq 97,5$ % Fines ≤ 2 weight -%
ENERGY DENSITY:	$> 4,7$ kWh/kg
LOOSE DENSITY:	≥ 650 kg/m ³
MOISTURE CONTENT:	≤ 10 %
ASH:	≤ 5 weight-%
CHLORINE:	$\leq 0,03$ weight-%
SULFUR:	$\leq 0,05$ weight-%
NITROGEN:	$\leq 0,3$ weight-%
ADDITIVES:	$< 0,5$ %
STORAGE:	Dry place
RETAIL SIZES:	Consumer package 20 kg, maxi package 500 kg. Bulk goods, 3-40 tons, delivered to customer's silo.
